

ENTERGY SERVICES, INC.
FEDERAL ENERGY REGULATORY COMMISSION
Docket No. EL-01-88-000 LPSC - CNO Complaint

MAY 28 AM 2012

Response of: Entergy Services, Inc.
to the First Set of Data Requests
of Requesting Party: Council of The City of
New Orleans

Question No.: Council CNO 1-10R

Part No.:

Addendum: R

Question:

Please refer to questions CNO 1-8 and 1-9. For the period 1990 to present, please provide a list of all units that have been operated as either a "Must-Run Unit, Minimum-Run Unit, or operated under the conditions of Section 30.06 (Fuel Contract Energy) of the Entergy System Agreement.

Response:

Entergy does not develop or retain documentation of the operation of its units according to the definitions of "Must-Run" and "Minimum-Run" contained in CNO 1-8 and 1-9. Entergy has made a "best efforts" assessment to identify those units that were most likely operated as "Must-Run" and "Minimum-Run" during the period 1990 to present. See the attachment for the list.

Entergy does retain documentation related to the designation of energy as Fuel Contract Energy. See the attachment for the list.

EAI
