40. As used herein, the singular shall include the plural and the plural shall include the singular.

Instructions

1. Data Requests, interrogatories, and requests for production of documents or any other discovery requests (collectively "Requests" or individually "Request") call for all information, including information contained in documents in native electronic format with all cells and formulas in tact when appropriate, which is known or available to the Respondents in this proceeding.
2. Where a Request has a number of separate parts or aspects, a complete response is required to each part or aspect. The response should separately address each part by its individual designation: "(CNO 3-1)(A)," "(CNO 3-1)(B)," etc. Any objection to a part or aspect of a Request should clearly indicate the part or aspect to which it is directed.
3. If a Request specifically seeks an answer in response that is not contained in the Document, an answer is required.
4. The person who prepares and is responsible for providing the response should be identified on the response.
5. If a Request can be answered in whole or in part by reference to the response to another Request served in this proceeding, it is sufficient to so indicate by specifying the other response or part or aspect thereof which is responsive to the instant Request and by specifying whether the response to the other request is a full or partial response to the instant Request. If the response to the other Request constitutes a partial response, the balance of the instant Request must be answered.
6. If a Request cannot be answered in full after exercise of due diligence to secure the information requested, state the answer to the extent possible, state why the Request cannot be answered in full, and state what information or knowledge you have concerning the unanswered portions.
7. If, in answering any of these Requests, you feel that any Request or instruction applicable thereto is ambiguous, set forth the language you feel is ambiguous and the interpretation you are using in responding to the Request.
8. If a document requested is unavailable, identify the document, describe in detail the reasons that the document is unavailable, state where the document can be obtained, and specify the number of pages it contains.
9. If no document is responsive to a Request which calls for a document, then so state. In some instances, the Request should be treated as an interrogatory.
10. All responses to the Requests are to be amended or supplemented if any person answering the requests obtains information upon the basis of which: (a) the party making the response knows that it was incorrect when made and (b) the party making the response knows that the response, though correct when made, is no longer true or is

misleading.

11. All Requests are considered to be continuing in nature, and thereby require you to produce by supplemental responses any document within the scope of the Request that you obtain, acquire, or discover subsequent to your initial response to the Request.
12. If the data or Documents responsive to a Request exist, to any extent, in a native electronic form (e.g. Excel file), provide the original native electronic file as part of your response. To the extent Documents responsive to any part of a Request may be extracted, saved, prepared, or presented in a tabular electronic format (e.g. Excel or Access file), provide that part of the response in a tabular electronic file (e.g. Excel or Access file).
