

ENTERGY NEW ORLEANS, LLC
CITY OF NEW ORLEANS
Docket No. UD-17-03

Response of: Entergy New Orleans, Inc.
to the Third Set of Data Requests
of Requesting Party: Advisors to the Council
of the City of New Orleans

Question No.: Advisors 3-1

Part No.:

Addendum:

Question:

Please provide the composite breakdown of the peak demand for each year of the forecast by customer class/sector (R, C, I, and G), including interruptible load. Please also provide the customer class composite of peak load for the most recent 5 calendar years.

Response:

Information responsive to this request has been designated as Highly Sensitive Protected Material (“HSPM”) under the terms of the provisions of the Official Protective Order adopted pursuant to Council Resolution R-07-432 relative to the disclosure of Protected Material and is being provided in accordance with the same.

See the HSPM attachment for the forecast period.

The Company does not calculate customer class contributions to past year actual peak demands. The Company does produce load research sample data that represents an estimate of the customer class demands; however, because this data is estimated based on load research sample meters, the amounts will not necessarily tie to the reported actual peaks from past years.

See also the HSPM attachment which provides the ENO customer class estimated hourly load shapes for years 2013-2017 and includes Algiers starting in January 2017.
